EEOC Releases Guidance on Workplace Harassment Prevention

The U.S. Equal Employment Opportunity Commission recently issued *Promising Practices for Preventing Harassment*, a guidance document that contains harassment prevention recommendations for employers in four broad categories:

- Leadership and accountability;
- Harassment policies;
- Harassment complaint systems; and
- Harassment training.

For each category, the guidance lists numerous actions employers can take. Recommended actions include, for example:

- Allocating sufficient resources for effective harassment prevention strategies;
- Crafting an unequivocal statement that harassment based on, at a minimum, any legally protected characteristic, is prohibited; and
- Conducting regular, interactive, and comprehensive harassment prevention training for all employees.

The document states that while the practices it discusses are not legal requirements under federal employment discrimination laws, they may enhance compliance efforts.
